QUARTERLY ACTIVITIES REPORT JUNE 2019

Discovery Africa Limited (ASX: DAF) ("the Company"), is an Australian based mineral exploration company with an interest in the Pinyalling Gold Project in Western Australia (via an option to purchase a 100% interest in the Project).

The Company provides the following update for the Quarter;

Exploration Activities

Gold Projects (Western Australia)

In April 2017, DAF executed a Heads of Agreement (HOA) with Bruce Robert Legendre, granting the Company a one-year option period to purchase a 100% interest in the Cue and Pinyalling Gold Projects in Western Australia.

This option period was extended in April 2018 for a further 6 months, and in October 2018 it was extended for a further 12 months, with key terms of the Agreement remaining similar.

Pinyalling Gold Project

The Pinyalling Project consists of Exploration Licence 59/2112 covering 18 blocks (54km²) and is located ~400km northeast of Perth. Access is via the Great Northern Highway from Perth to Paynes Find-Yalgoo Road. This road gives access to the Pinyalling Mining Centre, about 30km west of Paynes Find.

The Company completed a high level interpretation and review of open file aeromagnetic data over the Pinyalling Project area and immediate surrounds to delineate structural trends and zones of potential interest during the March quarter.

During the current reporting period, the Company has conducted works to consider an appropriate work programme to test the target areas identified from the geophysical review, and also follow up anomalous results obtained from the 2018 soil sampling programme. Field inspection of the targets may include preliminary soil sampling to ascertain the presence of any gold anomalism.

Limited activities were conducted on the Project during the Quarter due to a focus by the Company to resolve the on-going legal actions, as noted below.
