#### Securities on Issue:

**DAF:** 162,734,698 ordinary shares

**DAFO:** 42,898,005 20c listed options

**DAFAK:** 12,500,000 9c unlisted options

**DAFAI:** 1,000,000 20c unlisted options

**DAFAL:** 5,000,000 9c unlisted options

Discovery Africa Limited ('Discovery', 'the Company' or 'DAF') advises shareholders of the following indicative timetable in relation to the commencement of drilling at the Area 51 Project:

Date	Activity
18 January 2014	Site Establishment
20 January 2014	Drilling to commence
12 February 2014	Proposed completion of drilling
7 March 2014	Proposed receipt of core analysis

It is advised that the first 1,000 metres drilling will include 10 holes for an average depth of 100 metres each. Results from these drill holes will determine the extent of the drilling program going forward.

The Company further advises that geological mapping of the Lithium project will commence on 20 January 2014, followed by geophysical interpretation. The mapping will identify the rock types that will in turn determine the geophysical methodology. Following this review of the geophysical interpretation, the Company will then determine the next step in relation to acquisition of the Lithium project.
